ABOUT ME

I am a highly motivated programmer with a profound passion for the tech industry and a relentless drive for continuous learning. I am eager to find a dynamic and rewarding role where I can learn and apply my expertise and creativity to deliver impactful solutions and thrive in a forward-thinking environment.

EDUCATION

Khulna University

March 2024

B.Sc. in Computer Science and Engineering

COURSEWORK

Core Courses: Object-Oriented Programming, Data Structures, Algorithms, Software Engineering, Computer Security, Computer Networks, Artificial Intelligence, Data Mining and Machine Learning

SKILLS

Languages: C, Java, JavaScript, PHP, HTML/CSS

Libraries and Frameworks: Laravel, Nodejs, React, TailwindCSS, Bootstrap

Tools: Git/GitHub, Linux, VS Code

Problem Solving: [Hackerrank](#), [Leetcode](#)

PROJECTS

Potato Corner | *Laravel, TailwindCSS, AlpineJS, MySQL*

- Developed a restaurant management system handling orders, inventory, and customer interactions, focusing on the backend architecture.
- Features: user authentication, role-based access, real-time order updates, inventory tracking, and responsive UI design.

Book Store | *MongoDB, Express.js, React, Node.js*

- Built a full-stack e-commerce platform for managing books, users, and orders, focusing on the backend API and database design.
- Features: user authentication, product management, and responsive front-end with React.

Portfolio | *React, TailwindCSS*

- Fully responsive personal portfolio website. Demonstrates strong front-end development and responsive web design skills.
- Features: smooth scrolling, scroll animations, mobile-first design.

EXPERIENCE

Phone Tech BD Ltd | *Backend Developer* | *Laravel, Livewire, MySQL*

Jan. 2024 – Present

- Develop and maintain robust server-side applications using PHP, Laravel, and MySQL, occasionally integrating Livewire for dynamic front-end components.
- Deliver high-quality, continuously improved code focused on performance and maintainability.
