About Me

I am Mridha Imran Kabir, a backend-focused Junior Software Engineer at Barikoi Technologies Limited, specializing in building scalable applications with Laravel. My work involves designing and implementing web applications, writing server-side logic, interacting with SQL and NoSQL databases, and ensuring security standards and unit testing. I am passionate about optimizing performance and delivering clean, maintainable code while collaborating with cross-functional teams to create reliable solutions.

Experience

Barikoi Technologies Limited | *Junior Software Engineer* | *Laravel, MySQL*　　　　　　Feb. 2025 – Present

- Building scalable Laravel applications with Docker and Nginx, focusing on performance optimization and maintainable code.
- Collaborating with cross-functional teams to improve application functionality and user experience.

Phone Tech BD Ltd | *Backend Developer* | *Laravel, Livewire, MySQL*　　　　　　Jan. 2024 – Jan. 2025

- Built Laravel applications, integrated Livewire, developed mobile APIs, and optimized performance.
- Collaborated with cross-functional teams to enhance features and user experience.

Projects

Shifttrek | *Laravel, Livewire, TailwindCSS, AlpineJS, MySQL*
- Designed and implemented a comprehensive employee management system to handle employee data, attendance, payroll management and built api for mobile app integrations.
- Features: employee profiles, role-based access control, leave management, payroll processing, and reporting dashboard.

MelanoCoffee | *Laravel, Livewire, TailwindCSS, AlpineJS, MySQL*
- Developed a restaurant management system handling orders, inventory, and customer interactions, focusing on the backend architecture.
- Features: user authentication, role-based access, real-time order updates, inventory tracking, and responsive UI design.

Skills

Languages: PHP, JavaScript, Python, HTML/CSS, C
Libraries and Frameworks: Laravel, React, Django, TailwindCSS
Tools: Git/GitHub, VS Code, Postman, Docker, Nginx
Problem Solving: Hackerrank, Leetcode **Operating Systems**: Windows, Linux

Education

Khulna University　　　　　　Jan, 2018 - Mar, 2024
B.Sc. in Computer Science and Engineering

Core Courses: Object-Oriented Programming, Data Structures, Algorithms, Software Engineering, Computer Security, Computer Networks, Artificial Intelligence, Data Mining and Machine Learning.
